14 FEB 1951

MEMORANDUM FOR THE DIRECTOR OF CENTRAL INTELLIGENCE  
Attn: Chief, Liaison Division

SUBJECT: (Restricted) Additional Air Force Requirements  
for the Anders Collection

1. The inclosed requirements should be added to the list of Air Force Requirements for the Anders Collection forwarded to you by this headquarters on 19 January 1951.

2. The Air Targets Division has requested that the same general requirements and the requirements relating to industrial categories established as a guide for "Treasure Island" exploitation of Soviet periodicals also be used for background guidance in exploiting the Anders Collection. These requirements are available in the Air Studies Division, Library of Congress.

3. Air Targets also requests that the USAF Air Intelligence Interrogation Guide be used as an authoritative reference regarding the precise types of data which are and are not required under each major requirement category. With respect to target intelligence requirements, particular attention is directed to Tab 2, Section II, which summarizes the types of data required on industrial installations and facilities, and Tab 20, Sections II, III, and IV, which provide comparable specific guidance regarding towns and industrial concentrations. As emphasized in these Tabs and in Tabs 9-21, dealing in more detail with particular industries and types of information, primary attention should be devoted to extracting specific details on pinpoint location, identity, layout, structural and operational characteristics covering required installations and activities. Two copies of the USAF Air Intelligence Interrogation Guide are being forwarded with this letter for use by the extractors working on the Anders project.

4. The Verkuta Basin area is of primary interest to the Air Targets Division, particularly the railroad leading northeast from Ketlas into the Komi, A.S.S.R., and the settlements, mines, and facilities served by this railroad.

FOR THE CHIEF OF STAFF:

1 Incl:  
USAF Air Intel Interrogation  
Guide (in duplicate)

cc: Mr. Stearns, Air Studies Div,  
Library of Congress.

DALE D. BRANNON  
Colonel, USAF  
Chief, Collection Control Branch  
Collection Division  
Directorate of Intelligence
